Guidelines for Poster Presenters

General

All presenters, regardless of the session type (Oral or Poster) must register by 7 April 2023 to attend the conference and be included in the programme. There is no option to present remotely. You can register for the conference via the Registration LINK

Programme

A DRAFT copy of the programme is available on the conference website but is subject to change until after the presenter registration deadline of 7 April 2023 – shortly thereafter a FINAL programme will be available on the website.

Poster Guidelines

All posters will be displayed throughout the event. Please mount your poster soon after your registration on 12 June 2023 and certainly must be mounted by the poster session. Posters will be secured by Velcro stickers which will be provided on your board ready for use. All poster boards will be adjacent to the catering area for the conference.

Posters should be removed at lunchtime on 14 June 2023.

You will be expected to be at your poster during the poster session between 1600 and 1730 on 13 June 2023.

Poster Size and Layout

We recommend posters of A0 size (841mm x 1189cm) in portrait orientation. An A1 size will fit in landscape orientation. The dimensions of the poster board are 954mm x 2360mm.

Make sure you clearly display the title of your poster, your name, your department or faculty and institution. In order to make poster accessible, please remember that the colours red with green or yellow with blue are difficult to read for some people.

A strong contrast between text colour and background should be used and multiple text colours should be avoided.
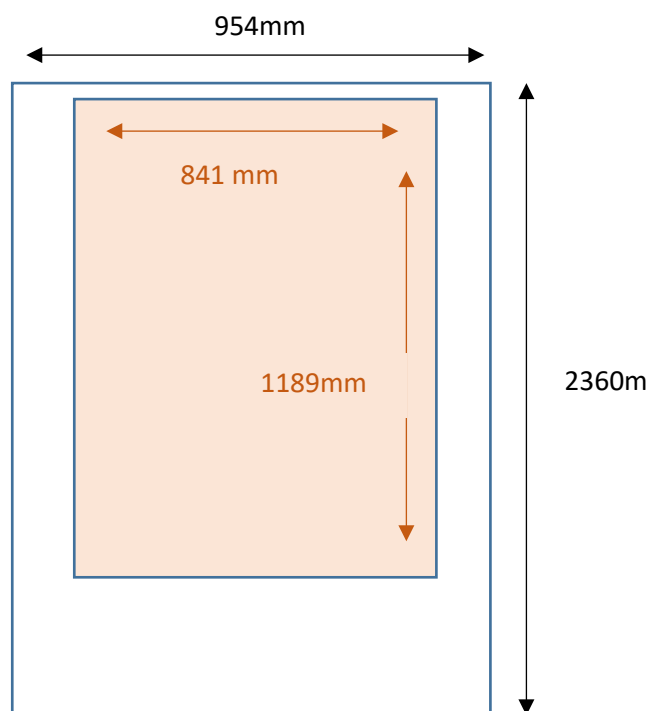

Images should include a descriptive caption.
