

## NHS Grampian Evidence Synthesis Service

Embedding evidence in decision-making is important and often requires rapid information gathering

Do you want to find some background information on a topic?

Are you trying to construct a search to find evidence?

Do you want to know the answers to specific questions?

### *What we can do*

Discuss requirements  
Identify relevant evidence/resources  
Review the evidence  
Synthesise and interpret the findings  
Produce outputs - from short summaries to full synthesis of evidence - tailored to your needs  
Follow-up work as required

### *Who we are*

Corri Black, Professor of Public Health Medicine, NHS Grampian and University of Aberdeen  
Lynn Robertson, Research Fellow, University of Aberdeen  
Lyn Mair, NHS Librarian
