

Serious Spill Response

The in-house spillage response team with breathing apparatus has been disbanded (August 2023)

In the event of a serious spillage:

1. Seal area off
2. Call the Fire Brigade (999)
3. Give relevant information:
 - a. What has been spilled
 - b. Type of spillage: gas, liquid, solid
 - c. Quantity or volume of spillage
 - d. Hazard classification of spill: toxic, flammable, corrosive, explosive, oxidising, hazardous to the environment, health hazard, serious health hazard or gas under pressure
4. Inform Security (extn 3939, or 01224 273939 from mobile) that the Fire Brigade will be attending and why
