- Attach documents or web links. You can add different file types such as PDF and PNG. Ensure that you are authorised to upload these files. Put the visibility as **backend – restricted to Pure users** if the files should not be seen by the public on the University’s Research Portal. Please note that the main record can be public even if added files are restricted.

Ensure any web links added are archived and active.

- Relate the activity to other content types such as a journal article to showcase the different parts of your research and network.

- Choose the option ‘**public – no restriction**’ for the visibility if you want the record to be displayed on the Research Portal.

- Ensure you click on **Save** when you have added all the information to the record. Any changes or updates made will be lost if you do not use the save button.
