

## **Regulations for Degrees Undertaken under the Agreement with Harbin Engineering University (HEU)**

The following Degree Regulations apply to the undergraduate degrees awarded by the University of Aberdeen and to students undertaking their studies under the Agreement with Harbin Engineering University (HEU).

1. Candidates for the award of a degree of the University, undertaken under the Agreement with Harbin Engineering University (HEU), must satisfy both the General Regulations for First Degrees and the Supplementary Regulations which govern their degree, unless superseded by the following.
2. The following awards are currently available:  
  
Degree of Bachelor of Engineering (BEng) in Civil Engineering

### **ENTRY REQUIREMENTS**

3. (a) Studies for degrees awarded by the University of Aberdeen, under the Agreement with HEU, are arranged to extend over four programme years, the first three of which are undertaken at HEU. The final year, subject to fulfilment of entry requirements, is undertaken at the University of Aberdeen.  
  
(b) It is an expectation of candidates, during the first three programme years spent at HEU, that they will register for and achieve those University of Aberdeen courses prescribed in the appropriate programme prescription, appended to these regulations. Progression within a programme of study will be deemed to be 'not on track' where a candidate fails to achieve the University of Aberdeen courses prescribed within any programme year.  
  
(c) For the purposes of the award of a University of Aberdeen degree, except with the permission of the Senatus Academicus, candidates may not enter programme year 4 of the University of Aberdeen honours degree programme, unless they have accumulated, by award or recognition, or been exempted from, at least 360 credits recognised for the degree, including those University of Aberdeen courses prescribed for programme years 1, 2 and 3 in the appropriate programme prescription, appended to these regulations and meeting English Language requirements as stipulated by the University of Aberdeen.  
  
(d) Exceptionally, the Senatus Academicus, on the recommendation of the School of Engineering, may permit candidates entry to programme year 4, with less than the number of credit points stated, if it is satisfied (a) that they would have obtained the necessary credit points to progress save for medical or other good cause; (b) that they are capable of satisfying the requirements of the next programme year within two further terms of full-time study.

### **FULL-TIME AND PART-TIME STUDY**

4. Contrary to General Regulation 4.1, candidates will undertake their studies on a full-time basis only. Candidates are not permitted to undertake their studies part-time.

### **REQUIREMENTS FOR GRADUATION**

5. Candidates must adhere to General Regulation 3.1 and 3.2 regarding requirements for Graduation. Candidates undertaking their studies under the Agreement with HEU are, however, exempt from satisfying General Regulations 3.1(d) and 9.2 in respect of Enhanced Study.
