

Go Abroad – Degree Restrictions

NB Where no restrictions are noted, it is usually possible for students to go out for a full year in Level 2 or a term in Level 3. Changes can occur from time to time due the requirements of individual degrees. Final permission to go abroad is always subject to the approval of the relevant Go Abroad Tutor(s)/School. This list does not include degrees with a compulsory period abroad – these students must go abroad at the designated time within their degree programme.
