Discovery for Chinese Veterinary Medicine

LOCATION: Nanjing Agricultural University

ORGANIZER: College of Veterinary Medicine, Nanjing Agricultural University

DATE: July 29th to August 11th

LANGUAGE OF INSTRUCTION

English

COURSE INTRODUCTION

1.Basic theory of Chinese Veterinary Medicine

2.Application of Chinese Veterinary Therapy

3.Skills of Animal Acupuncture

Throughout this program, students can learn about the relevant theories of traditional Chinese medicine and veterinary medicine; the basic structure of the body, Zang (organs), Qi (life force), Xue (blood), Jing-luo (meridian channels), and acupuncture treatment methods.

COURSE DETAILS

This program takes Chinese veterinary acupuncture as the starting point, focusing on the disease treatment of companion animals such as dogs and cats, combines with the production and breeding of large animals such as horses, also with clinical treatment, especially the practical teaching of acupuncture treatment. During the period of the course, study, discussion and final assessment report will be done through small-group learning.

LEARNING OUTCOMES

Knowledge

understand the basic theories of traditional Chinese medicine such as yin-yang and Wu-xing (five elements), Zang-fu organ theory and Jing-luo (meridian channels), acupuncture and moxibustion; understand the role of Chinese veterinary medicine in treating companion animals.

Skills

familiar with the skills of traditional Chinese veterinary medicine to control animal diseases; analyze clinical practical problems with the concept of traditional Chinese veterinary medicine.

Quality

understand the traditional culture of Chinese medicine and traditional Chinese veterinary medicine; improve your perception of traditional Chinese veterinary medicine.

TRAINING TEAM

The training professors are all from the Institute of Chinese Veterinary Medicine (hereinafter referred to as the "Institute"). The institute is a unit under the College of Veterinary Medicine. It advocates using integrated Chinese and Western veterinary medical methods to prevent and treat livestock and poultry diseases, also actively applies modern scientific methods to summarize the heritage of traditional Chinese and veterinary medicine.

The institute presided over the establishment of Chinese Herbology program and the Chinese veterinary medicine scientific group, also established the international veterinary acupuncture class / Traditional Chinese Medicine class, the integrated Chinese and Western veterinary service department and the pet clinic, and regularly held international veterinary acupuncture courses. It was one of the earliest institutes in China which provide international veterinary acupuncture courses.
