ME 5017	Medical Elective	40			
ME 5018	Immediate Life Support (ILS) Course	0			
ME 5013	Alternative Clinical Block	40			

Notes	
1.	In years 4-5 the specialities are taught on a rotation basis; therefore some students will do a particular speciality in the first half-session while others will do it in the second. The course codes relate to exams rather than courses.
2.	It is possible for a student to graduate with the degree of Bachelor of Medical Science (10A10198) instead of the degrees of Bachelor of Medicine and Bachelor of Surgery once 360 or more Credit Points have been achieved. This would normally occur after successful completion of ME4805 SSC 3 Clinical Effectiveness in the third term of Year 3.
3.	It is possible for a student to graduate with the degree of Bachelor of Medical Science (Hons) (10A10170) instead of the degrees of Bachelor of Medicine and Bachelor of Surgery once 480 or more Credit Points have been achieved, including a minimum of 120 at level 1 (Cert) (7), 140 at level 2 (Dip) (8), 110 at level 3 (Ord) (9) and 110 at level 4 (10). This would occur at the end of fourth year.
4.	ME 5012 is a code to identify the final clinical assessment in Year 5 which students must complete but which is not 'a course' as such.
5.	ME 5013 is an additional clinical block for students who are retaking final year and have already gained a pass in the Medical Elective.
